Patient: Randy Umanzor

DOB: Redacted

April 15, 2014

To Whom It May Concern:

Mr. Umanzor is a patient under my care for relapsing remitting multiple sclerosis diagnosed in February 2013. His neurological exam is normal except for mild sensory loss in the first two fingers on the left hand. He is medically stable for entry into the NYPD as a cadet. Please contact me if you have any questions at 718-246-8590.

Sincerely,

Kristen Babinski, MD
